LinkedIn: <https://www.linkedin.com/in/jordanlopez123> | GitHub: <https://github.com/Lopez-Jordan>

Dedicated and adaptable Junior Web Developer with a background in Economics and Mathematics. Enthusiastic about creating user-centered web experiences using HTML, CSS, and JavaScript. Eager to enhance proficiency in both front-end and back-end development. Skilled in problem-solving and simplifying complex ideas into intuitive designs. Ready to bring creativity and analytical abilities to a dynamic development team.

## Technical Skills

**Frontend:** HTML5, CSS, JQuery, Javascript, Bootstrap, UIKit

**Backend:** MySQL, Express, Node, Python3, Java

**Other:** Excel, Stata, R, consulting, leading teams, treasurer of greek organization (college)

## Projects

**Crypto Dashboard** | <https://ailllycxr.github.io/cryptoDashboard/>

Project Lead

- Built for cryptocurrency education—allows user to find information on any coin, build a mock crypto portfolio, make informed investment decisions, and find exchange rates
- Primarily a front end project that allows dynamically generated content using CryptoCompare and CoinLayer APIs. I designed the UI/UX, coded the necessary Javascript/jQuery to implement this data, and used UIKit for extra functionality.
- Tools/Languages: Javascript, HTML, jQuery, CSS, UIKit, Bootstrap

**Portfolio Website** | <https://lopez-jordan.github.io/second-portfolio-project>

- This website allows you to see all of my previous web dev projects all in one place
- With this project, I focused on pushing my abilities to design a fully responsive website that had an easy to follow user experience and beautiful user interface
- Tools/Languages: HTML, CSS

## Work Experience

**Gesher Group Consulting (club)**

May 2020 - May 2023

Project Manager

Santa Cruz, CA

- Led consulting team to grow small local companies and achieve their goals
- Redesigned websites, offered SEO strategies, implemented SWOT Analysis,
- Held professional events/seminars and meetings for guest presentations of club alumni

**Digital Motors**

May 2020 - May 2023

Product Manager Intern

Irvine, CA

- Designed quarterly budgets (\$12,000), Established purchase/payment/audit structure, generated web development 'To Do' tickets, mastered Git workflow for full-stack app.

## Education

**Certificate, Full Stack Web Development** —University of California Berkeley

**Bachelor of Science, Economics and Mathematics** —University of California Santa Cruz
